

Winry Xiaoyi Cigna

Expected Graduation: May 2027

808-494-1576 | winrycigna@gmail.com |  Winry Cigna

Professional Summary

Mechanical Engineering student with a 3.67 GPA and experience in systems engineering, construction engineering, CAD design, and hands-on manufacturing. Skilled in engineering analysis, technical drawings, simulation, fabrication, and project support, with additional experience in teaching and team collaboration. Proven ability to apply technical knowledge to real-world engineering projects while communicating effectively and working across multidisciplinary teams. Seeking an internship or full time position.

Experience

Systems Engineering Intern *Booz Allen Hamilton* June 2026 - August 2026

- Imported and rendered a digital twin in Blender, supporting visualization and simulation of a virtual system environment.
- Utilized Python and AI-assisted tools to execute, test, and evaluate a SLAM (Simultaneous Localization and Mapping) program, supporting autonomous navigation
- Collaborated in a team to create an autonomous drone swarming simulation in NVIDIA Isaac Sim

Chassis Engineer *Team Robotic Space Exploration (RoSE)* August 2025 - Present

- The chassis was designed to be hyper-modular and weather resistant. Advised by a NASA JPL researcher the URC rover competition has a 19% acceptance rate for the world.
- Mechanical Engineer for the chassis subsystem on RoSE under the Hawaii Institute of Geophysics and Planetary Science.
- Fabricated chassis components using a waterjet, hydraulic press, 3D printer, vertical band saw, drill press, and steel grinder to support a highly modular design created using CAD.
- Applied statistical methods and tolerance analysis to evaluate component dimensions and improve fit and manufacturability.

Construction Engineering Intern *Jas W. Glover Ltd.* August 2025 - May 2026

- Utilized Excel to organize bid data, perform cost calculations, and support project estimating for construction projects.
- Reviewed and interpreted engineering drawings, plans, and project specifications to assist with bid preparation and estimating.
- Participated in meetings for large-scale construction projects, gaining exposure to project coordination, scheduling, and the overall project management process.

Mathamatics Tutor *University of Hawaii Mathamatics* August 2024 - August 2026

- Tutor/Grader: Tutored students in Algebra through Calculus IV, providing support with problem-solving, course concepts, and assignments.
- Learning Assistant: Assisted with instruction and tutoring for sections of 20–30 students and hosted additional help hours outside of class.

Education

University of Hawaii at Manoa *Honolulu, Hawaii* August 2023 - Present

- B.S. in Mechanical Engineering (Expected Graduation: May 2027)

Technical Skills

CAD/CAM: Onshape

Engineering Software: Arduino IDE, Visual Studio Code, MATLAB, Blender

Productivity: Microsoft Excel, Word, PowerPoint, Google Sheets, Docs, Slides
